

4 input, 16 output expansion board for FGC108 / STPL4+

STPL4/ESP

The STPL4/ESP / FGC104E is designed to expand the STPL4+ / FGC108 gas control panel from 4 inputs to 8. In addition, 16 open collector outputs are provided. These outputs are automatically assigned as pre alarm threshold 2 and alarm threshold 3 for each input. The expansion board is easily installed into the STPL4+ / FGC108 using plug connectors.

Specifications

Number of inputs	4
Input rating	4 - 20 mA
Open collector outputs	16
Open collector output rating	20 mA
