8 input remote module for MUTLISCAN++S1, 4-20mA, up to 256 inputs

STG/IN8-S

The STG/IN8-S allows additional gas detector inputs to be connected to the ST.MTS/S1B gas control panel. Each module accommodates eight 4-20 mA signals from gas detectors.

The addressable input module connects to the RS485 serial bus of the ST.MTS/S1B gas control panel. Up to 32 modules may be connected to the RS485 bus.
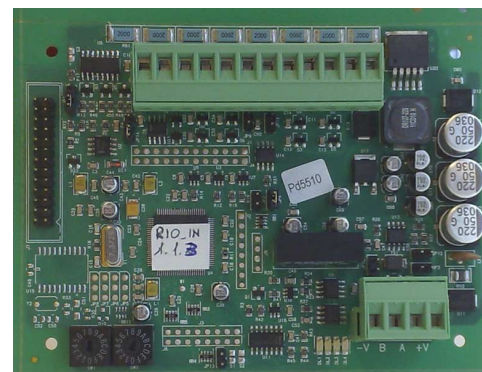

The STG/IN8-S may be optionally housed in the FGA120B IP55 plastic box.

Specifications

Number of inputs	8
Input rating	4-20 mA
Dimensions	120mm w x 90mm h

Ordering Information

STG/IN8-S	8 input remote module for MUTLISCAN++S1, 4-20mA, up to 256 inputs
FGA120B	Housing for STG/IN8-x or STG/OUT16-x modules, IP55

- 8 x 4-20 mA inputs per module
- Up to 32 modules can connect to control panel
